## CUSTOM WALLPAPER

The Shack Restaurant is a marvel to look at; the wallpapers really give it life and are certainly a topic of conversation when visiting. The graphics in the wall paper were custom drawn and printed based off of one idea the designer had. All particulars were meticulously thought out and coordinated around the nautical theme of this project. Here is the proof that we can help you Create your Scenes!

## UPHOLSTERY

«Collections Design Origine» custom prints also extend to textiles. We can create any pattern you desire for upholstery of chairs, ottomans, benches, loveseats and headboards. As shown below, it's a great advantage for boutique/retail Designers.

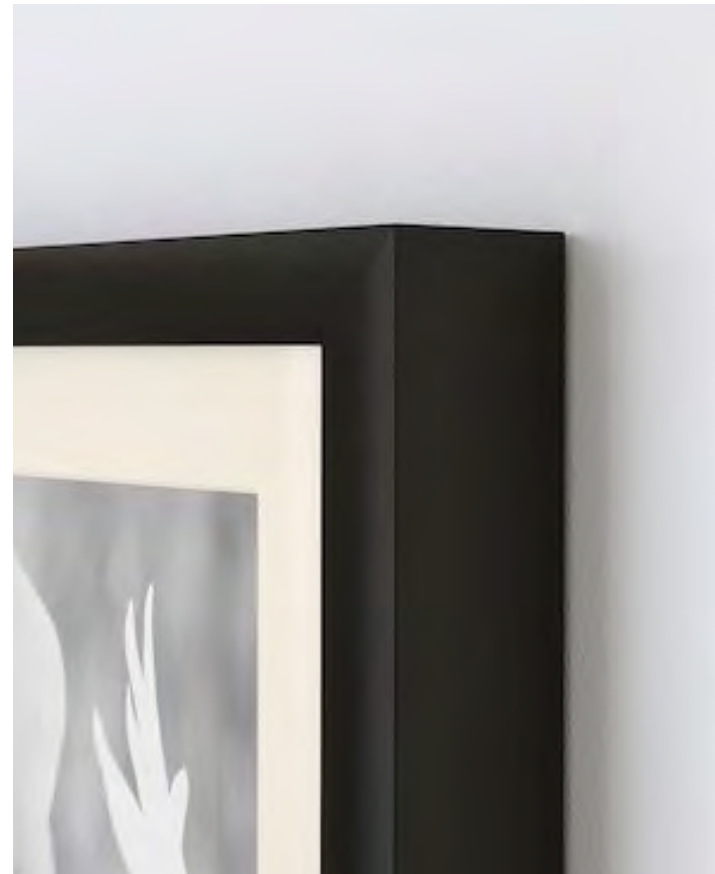

## CUSTOM PRINT SHADES

The Jack Restaurant gave birth to a new trend, custom drawn prints on wooden shades. It is the ideal way to obtain a natural texture while adding some pizzazz. «Collections Design Origine» can produce custom shades for any style, size, texture, imaging, patterns and coloring. Your options are practically limitless.
